## Description

The new City West F2 building is easily accessible by public transport thanks to the Stodůlky metro station, which is only a 2-minute walk from the main entrance to the building. In the case of transport by car it is possible to use both parking in front of the building and in the garages of the building itself. Lovers of ecological transport will certainly enjoy the availability of charging stations for electric cars and the upcoming bicycle shed for cyclists in the basement of the house. Cyclists can use a cycle path crossing the City West. The City West project is located in the western part of the capital city of Prague, only a 12-minute drive from Václav Havel International Airport. You can also reach the D5 motorway to Germany or the Prague ring road in just a minute, which provides a fast connection to the east.
