Description

The Dynamica building offers its users 16,000 m² of office and retail space. With its shape and architecture it is similar to the Aviatika building and it will complete the face of the entire Waltrovka

development towards Radlická Street. The airy and organic shape of the building can offer its future tenants a very efficient space in the building. This space offers modern design, architecture and at the same time the latest trends in the technology used with regard to environmental friendliness. Plenty of parking spaces and facilities for cyclists are a matter of course, as well as archive and storage space, which effectively complements the offices. Dynamica received a green pre-certification in the LEED Gold degree.
