## Description

The City Element project will open the entire CITY complex from the south-east. An interesting architectural solution in the shape of a “L” letter with a green inner atrium and a total administrative

area of approximately 7,000 m<sup>2</sup> will thus become an ideal solution for medium-sized companies. In this building you will find a quality equipped working environment with the possibility of establishing a client centre on the ground floor and with the comfort of the necessary facilities of a commercial and administrative complex, which is ensured by connecting with neighbouring buildings. With its planned central reception, City Element is also ready to satisfy the space requirements of smaller tenants in case of interest.
