Description

The Platinum building is located in the Žabovřesky district in one of the most attractive locations in the city of Brno. This place is extraordinary in terms of transport accessibility of the public transport network (near the Tábora stop). On the ground floor there is a central reception, a bank branch, a sales area, an art gallery and a passage to the courtyard of the building. There is a covered parking lot for 58 cars and an entrance to the underground floor with garages. The modern concept of the building allows for any layout of the individual floors with a total area of approximately 1,300 m². Thanks to this solution, it is possible to offer separate lockable office units on one floor in the building. The layout of the individual rooms is essentially unlimited and it is possible to prepare both modern large-scale units and classic divided offices.
