Description

The Tetris Office Building was designed and built in the spirit of a smaller, highly comfortable office building. The building consists of 8 above-ground and 3 underground floors. The total area of the building offers about 4700 m², of which about 4200 m² is an office space. The interior has been designed to meet the highest standards with a minimum of common areas. The concept of the building was completely subordinated to future requirements for maximum variability of space, thanks to which it does not limit its tenant in choosing the internal layout of the offices. The typical floor of the Tetris building has the area of approximately 570 to 630 m² and allows maximum comfort for tenants. The Tetris building is located at the intersection of Budějovická and Sedlčanská streets. Perfect accessibility is ensured by the D1 motorway, the North-South highway and the South link, i.e. the inner ring road. The exit from the Budějovická metro station is at a distance of about 50 meters from the entrance to the building. From the upper floors there is a wonderful view.
