Description

Vlněná Office Park is a newly emerging administrative centre, which will offer 120,000 m² of office and retail space in a high standard after its completion. Vlněná Office Park grows on the site of a former textile factory, after which it has retained its name. It is located in the centre of Brno. A huge advantage is the unrivalled public transport connection and the main bus and train station in Brno within walking distance. Underground parking lots offer plenty of parking spaces. The close proximity of the city centre and the Galerie Vaňkovka department store will provide all civic amenities and services. Vlněná Office Park will consist of a total of ten buildings, many of which are already occupied and another ready to move to. A park with a pond and greenery has been built between the individual buildings. All premises are certified according to the strict sustainability criteria of BREEAM buildings and offer office space that can be adapted to the requirements of individual tenants. In this project it is possible to rent both small office space and offices with a size of several thousand square meters. The size of the centre offers flexibility and will also enable expansion into newly emerging premises to an extent that currently has no competition on the Brno market.
